

Day	Program	Speaker	Organisation
<b>Wednesday 27th of May</b>	Welcome to the Municipality of Koksijde	Sander Loones	Major of Koksijde
	Welcome to the LIFE DUNIAS conference	Gert Vanhoydonck Reinhardt Strubbe, Maarten Lycke, Maxime Christiaen, Sander Carael	Policy advisor at the Cabinet of the Flemish Minister for Environment and Agriculture
	LIFE DUNIAS: project achievements and lessons learned	Christiaen, Sander Carael	Project team LIFE DUNIAS
	Tackling IAS in the municipality of Koksijde: a LIFE DUNIAS partnership story	Ritchie Gobin	Municipality of Koksijde (BE)
	Measuring the impact of IAS control on pollinators in coastal dunes	Maarten Wielandts	Natuurpunt Studie (BE)
	Life RIPARIAS: from data to management	Muriel Thiron	Bruxelles Environnement (BE)
	Restoring insular habitats in Natura 2000: confronting invasive alien species and senescent trees in the Galician Atlantic Islands	Javier Ferreira	University of Santiago (ES)
	Tackling invasive ornamentals in coastal ecosystems: experiences from LIFE medCLIFFS	Sonia Garcia and Maria Guirado	Botanical Institute of Barcelona; Girona province (ES)
	The ecosystem resilience approach (ERA) of widespread invasive tree species (WITS)	Bart Nyssen	University of Leuven (BE)
	Practical workshop moderated by INBO	Bram Dhondt/Tim Adriaens	Research Institute for Nature and Forest (BE)
	Tackling Invasive Alien Species in Danish dunes: practical experiences, reflections from LIFE projects and future plans	Maria Vera Ulrich Michelsen	The Danish Nature Agency (DK)
	Dunes of the British Isles: concerns and questions regarding invasive plant species	John Houston and Phill Smith	Retired dune manager and retired University lecturer (UK)
	Estron Twyni Cymru	Graham Williams	Natural Resources Wales
	How to deal with invasive non-native plant species in dry coastal dunes in North Holland, the Netherlands	Dick Groenendijk	PWN - Water supply company in North Holland
	Unwanted guests: Removing Invasive Alien Species in a flooded nature and recreation paradise	Martijn van Schaik & Koen Mathot	PWN - Water supply company in North Holland
	Dune networks and the view of two dune dinosaurs	Luc Geelen & Maike isermann	Waternet (NL) & Lower Saxon Wadden Sea National Park Authority (DE)
	Introduction to the excursion	Reinhardt Strubbe	Agency for Nature and Forest (BE)
<b>Thursday 28th of May</b>	Full day excursion		
<b>Friday 29th of May</b>	Nipped in the bud: biodiversity and natural processes on sandy beaches and foredunes.	Jean-Louis Herrier	Agency for Nature and Forest (BE)
	The willow <i>Salix acutifolia</i> as an undesirable component of coastal dune habitats – a challenging problem on the southern Baltic coast.	Magdalena Lazarus	University of Gdańsk (PL)
	The status of coastal dune habitats in Lithuania and prospects for their management under the “LIFE for Dunes PL” project.	Zigmantas Gudžinskas	Nature Research Centre (LT)
	25 years of restoration in Belgian coastal dunes: can we master the natural processes?	Sam Provoost	Research Institute for Nature and Forest (BE)
	Invasive plants in coastal dunes: associations with urbanization and impact on dune dynamics	Dries Bonte	University of Ghent (BE)
	All these brilliant initiatives in Denmark... Now, where's the glue?	Jeppe Pilgaard	Thy national park (DK)
	LIFE terrAmare: communities for the integrated management of coastal habitats in Italy and Greece	Ilaria De Vita	D.R.E.Am. Italia
	What's up next: After LIFE DUNIAS and closing remarks	Reinhardt Strubbe	LIFE DUNIAS project coordinator
